Training Programme Broucher

# Jenome Technologies

Jenome Technologies is New Delhi India based leading Bioinformatics company involved in Discovery, development & innovation of New Technology. It has been involved in the field of Bioinformatics, system Biology, genomics & proteomics based services. We offer Bioinformatics based software development, contract research, Data mining, Training & consulting services. Our services include Experimental design for microarray study, Biomarker discovery for treatment of diseases, Predictive Toxicology, Pathway discovery, genome Bioinformatics & RNAi screening.

The company has an experienced team to deliver quality services in the field of Bioinformatics & genomics.

# Classroom Programme:

## Courses:

Seat : 20

### Courses

1. Advance Diploma in Bioinformatics
2. Advance diploma in Biopharma technology & genomics

### Duration

Six/Twelve Month  
Six/Twelve Month

### Fee Structure

six month -	60,000 RS
One year -	1,20,000 RS
six month -	60,000 RS
One year -	1,20,000 RS

## Course curriculum Details:

### 1. Advance Diploma in Bioinformatics

#### Course Details:

1. Introduction to Bioinformatics
2. Introduction to system Biology
3. computational genomics.
4. DNA Microarray analysis.
5. Protein structure & computational Biology
6. chemoinformatics in Drug Discovery
7. Pearl & unix in Bioinformatics
8. Algorithm of Bioinformatics
9. Biological sequence analysis
10. Human gene Therapy

## Course curriculum Details:

2. Advance diploma in Biopharma technology & genomics

### Course Details:

1. Biopharma Basics & Applications
2. Human gene Therapy
3. Protein Structure & computational Biology
4. genomics
5. computer Added Drug Design
6. Immunity & Diseases
7. Introduction to Bioinformatics & system Biology
8. Microarray Informatics
9. Biological sequence analysis
10. Methods of Molecular Biology.
11. SNP identification & uses.
